

Activity: Design a House

Name: _____

DESIGN A HOUSE

1. Describe the land and climate of your building site. How will you design your house to suit the site?

2. Who will live in your house? What spaces and rooms will you have?

3. Brainstorm how your house will function. On graph paper, draw rough sketches of the floor plan of your house.

4. What materials will you use to build your house?

5. What style is your house? On graph paper, draw at least three thumbnail sketches showing what your house will look like.
