# Keeper Conversations: A Gathering of Community Voices

## Creating a Fire Safety Plan, Grade 8

### Introduction

If you ever experience a fire emergency at home, you might not have much time to react. Having a **fire safety plan** in place can help you be prepared.

### Part 1: Brainstorm

1. Identify any objects in your home that could cause a fire and write them in the space below. Think about items that might be able to generate a lot of heat.

2. Write down the number of safe exits in your home. **Safe exits** are doors or windows that can safely lead you outside.

## Part 2: Fire Safety Plan

### Escape Plan

Use the space below to draw a basic map of your house, including all the floors and rooms. Identify and label at least 2 fire exits for each room. It's important to assign 2 exits for each room in case the first exit is blocked or can't be used. Mark your exits in a different colour so they're easy to see!

## Fire Safety Tools

Fire safety tools can help prevent fires or their spread. Use the Internet to research each of the tools below. Write down what each tool does and how you use it.

### 1. Smoke Detectors and Carbon Monoxide Alarms

What they do:

---

---

How you use them:

---

---

---

### 2. Fire Extinguishers

What they do:

---

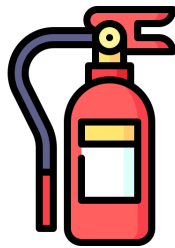

---

How you use them:

---

---

---

Name: \_\_\_\_\_

Date: \_\_\_\_\_

### 3. Fire Blankets

What they do:

---

---

How you use them:

---

---

---

### 4. Escape Ladders

What they do:

---

---

How you use them:

---

---

---

Which fire safety tools do you have at home?

- |  |   |
|--|---|
| <input type="checkbox"/> smoke detector    | <input type="checkbox"/> carbon monoxide detector |
| <input type="checkbox"/> fire extinguisher | <input type="checkbox"/> fire blanket             |
| <input type="checkbox"/> escape ladder     |   |

Consider asking a parent or guardian to purchase any fire safety tools you don't already have. These tools can save lives!

## Emergency Contact List

Having a list of contacts available can be helpful when you need to reach someone during or after a fire or other emergency. Write down the names and numbers of people you can contact.

<b>Emergency Services</b>	<b>Guardians</b>
<b>Other Family Members</b>	<b>Neighbours</b>

## Part 3: 3-2-1 Reflection

Reflect on what you have learned today by completing the reflection below.

3	<b>things you learned about fire safety.</b>
2	<b>things you found it hard to understand about fire safety.</b>
1	<b>question you still have about fire safety.</b>
